CITY 7 is an elite class residential complex located in the very center of Alanya, on the Mediterranean coast, not far from Keykubat Boulevard.

The first stone was laid in October 2020, and right now the project is ready to move in.

CITY 7 complex participates in the renovation program, therefore the state controls the high level of quality of building materials, work performed and deadlines, which characterizes the project legally clean and safe.

The total area of the residential complex is 623 sq.m. with a total number of apartments – 30, of which 14 are vacant: 12 apartments 1 + 1 48 m<sup>2</sup>; 2 duplexes 2 + 1 125 m<sup>2</sup>.

The project is located in an area with a high demand for rent and has a high level of liquidity, as in any city center. A beautiful embankment, an abundance of good restaurants, the absence of residential complexes with large territories makes it possible to get a high rental income from the owner.

In the CITY 7 residential complex, we use our own technology with a high level of sound and heat insulation, we install high-quality Grohe and Bocchi plumbing fixtures in the bathrooms, and we use modern flooring. The complex will be equipped with an air conditioning system. There is an outdoor pool, playground and barbecue area on site. Inside there is its own fitness center, sauna and relaxation room, 2 lifts and a generator. Nearby there is a supermarket "Migros", as well as many other objects of trade and service infrastructure.
